

STREET PLAY 30th NOVEMBER 2016

Thakur Shyamnarayan College of Education & Research had conducted a street play on 30th November, 2016 our issue was on Child Labour. We had it in 3 places firstly, near Thakur cinema, secondly, near the Thakur Complex and thirdly, at Dream park garden our street play was successful. We started our street play by 10.30 am and ended up till 1.0 pm.

Our street play was on child labour. We picked this issues because we also face this in our current scenario. He had also picked up few topic on cleanliness. But due to some issue it didn't happen.

The time we performed we individually felt the energy in our role. We performed it with great energy and being in that situation and acting, making people realize. All our dialogues were very catchy and easy to understand our self-confidence and self-esteem grew.

Appreciation was given by each and other in the crowd, people were encouraging us and waiting to see the full act. The major part of this street was bringing change in people's mind and bringing change in society.

Our group made decision together all that dialogues and script was prepared together. Our teachers and principal had given us encouragement and said to be optimistic and appreciation from them.

It was a beautiful and a successful street play.
