With the cooperative efforts of all the personnel and students within the short span, TSCER has achieved special milestones in the field of education. The institution now is one of the reputed teacher education institutions in the suburban Mumbai, endowing excellence in learning, teaching and research.

With the inspiration to provide exemplary teachers, each year TSCER is constantly functioning to bring innovations as per the needs of the changing educational demands. The college is taking initiatives to provide effective teachers who can cater to local as well as global needs of the society. The academic calendar of the institution is heavily packed with all sorts of academic and co-curricular activities that integrate the use of head, hand and the most importantly heart of its students. The students of TSCER have been recruited by various schools and colleges affiliated to State, National and International boards.

To conclude, ***TSCER is persistently working towards the excellence of its students.***

ABOUT THE TEACHING PROFESSION

Each and every profession occupies a specific place and respect in the society. Doctors heal patients, Engineers design and bankers handle money. But, the role of teachers is above from all. Teaching job requires great responsibility as compared to any another job. It has an impact on the growth and well-being of the nation. Teachers educate the youth of a nation.

'The importance of a teacher as an architect of our future generations demands that only the best and the most and competent members of our intelligentsia be allowed to qualify for this noble profession.'

Teachers are an extremely important facet of any society for a number of reasons and their role in society is both significant and valuable. Teachers are the people who educate the youth of society who in turn become the leaders of the next generation of people. They are teaching children and imparting knowledge upon them in their most impressionable years. What children learn from their teachers at a young age will most likely stay with them in some facet for the rest of their lives. Teachers play an extraordinary part in the lives of children for the formative years of their development and the importance of teachers is something that cannot be understated. They involve themselves in moulding their students into responsible citizens of the country as well as the whole universe.

Teaching is a career that provides challenges, excitement, personal reward and a chance to encourage and support others to achieve their goals. There are many personal qualities and skills that make someone a good teacher such as:

- being good at explaining concepts
- being a people person and enjoy working with a wide range of learners
- enthusiasm and patience
- having a strong knowledge in particular subject area
- being a good time manager
- ability to work in a team as well as using own initiative
- keeping cool under pressure
- having a good sense of humour
- being fair-minded
- coping well with change
- enjoying a challenge

Teachers are needed because they provide guidance, knowledge and right direction to the student. The teacher is the person who inspires and encourages the student to strive for greatness, follow the values, give shape to future and nurtures their talent and potential. An effective teacher can have a positive impact on the career path of a student. A good teacher acts as a mentor to motivate the student at every point of difficulties in and out of the classroom. Thus, a person with proper vision and a passion to teach and work with the learners can enter the teaching profession.

'PROUD TO BE A TEACHER'

ABOUT THE B.ED COURSE

B.Ed stands for an undergraduate academic course known as Bachelor of Education. Earlier it was known as Bachelor of Training (BT). It is a course offered for those who are interested in pursuing career in teaching and related fields. It is a skill based training program which imparts knowledge to students regarding all aspects of classroom teaching.

Bachelor of Education or B. Ed. is an undergraduate program of **2-year** duration. The 2-year program is generally divided into four semesters and structured in a way that not only involves classroom based teaching, but also practical training and internships. Any student, who wishes to make a career in the field of teaching, has to undergo the process of learning all the necessary aspects of education. One must pursue the course in order to be eligible for teaching at high school level. This course demands students to be vocal and fluent in their speech. They must also be good at problem-solving since teaching at high school level is a very challenging job.

Various Subjects in B.Ed (University of Mumbai) course are as follows:

- Childhood and Growing up
- Knowledge and Curriculum
- Gender, School and Society
- Critical Understanding of ICT
- Educational Management
- Pedagogy of School Subjects (English, History, Geography, Science, Mathematics, Economics, Commerce, Hindi)
- Language Across the Curriculum
- Contemporary India and Education etc.

The core courses provide a conceptual and contextual understanding of the topics while the pedagogy courses deal with the aspects essential for a teacher. B.Ed course also consisted of various project based courses and assignments which will enable an individual to become a competent and effective teacher.

How is B.Ed Program Beneficial to an Individual?

- It widens the job opportunities available in the teaching profession.
- By learning the principles of teaching, an individual develops the skill of efficient teaching of pedagogy.
- It widens the understanding to impart quality education to students.
- A professionally qualified teacher is considered as a respectable member of the society.
- After B.Ed. for higher studies students can pursue Master in Education (M.Ed.) in Indian Universities.
- There is also a considerable raise in the salary of a properly qualified teacher from the reputed institution.
- There are greater prospects of joining the government and aided educational institutions.
- The individual is qualified to join SSC, ICSE, CBSE and also international boards as at teacher.

From Desk of Trustee

Shri Rakesh V. Singhji Trustee

In the Academic year 2022-23, Thakur Shyamnarayan College of Education & Research (TSCER) has completed 14 glorious years of creating extraordinary teachers, who are passionate and highly skilled. This journey has been vastly gratifying and fruitful for all of us at TSCER. As an institution, which strives to encourage and build a world of education where all the partakers are proactive towards their duties and conscious of their role in helping build the future of our nation, we feel proud to be successful in giving such teachers to the world.

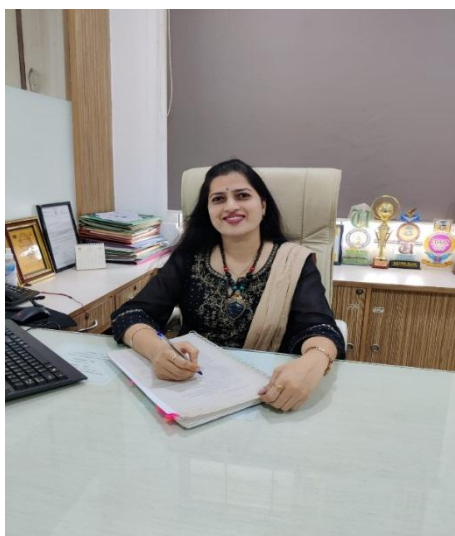

TSCER aspires to create well-rounded individuals who are passionate about teaching, are always seeking growth in all areas of development, and are active in fulfilling their role in the society. For the success of these endeavors, we provide best infrastructure and opportunities and resources to our student-teachers.

The noble profession of teaching requires enormous efforts from the teacher educators and student-teachers to bring out the best of capabilities in them. It is these efforts which eventually help them to become brilliant teachers who not only know how to teach well but also know how to bring out the best in their students. As Nelson Mandela said,

“Education is the most powerful weapon you can use to change the world”

We are striving to change the world one student-teacher at a time, as what a teacher is, is more important than what she teaches.

From Principal Desk:

Dr. Megha D. Gokhe **Principal**

For any institution, it takes the immense support of an eminent and remarkable Trustees and management, to make it distinguished. Thakur Shyamnarayan College of Education & Research (TSCER) has been highly fortunate in being blessed with uninterrupted support and guidance from our august Trustees. TSCER is always grateful for the encouragement and contribution of our trustees resulting in the splendid success of our esteemed institution.

The management and staff of TSCER strive to work hard with the support of the trustees in pursuit of our vision and purpose. Our student-teachers are similarly encouraged to tread towards the goal of perfection and precision.

It's been 14 glorious years, full of hard work, persuasion, diligent efforts, and persistent steps being taken for the fulfilment of our mission:

“To provide outstanding educators and researchers, through the art of teaching, learning, and research”

Our vision is to create a world full of teachers who are capable of teaching globally. The student-teachers are trained well to make them well equipped with skills to be able to teach in any board, be it national or international. We strive to craft our student-teachers in such a way that they are able to overcome any obstacle and easily swim their way through the sea of hurdles to reach their goals. We train them in discovering their hidden talents and skills, and in enhancing all the aspects of their personalities.

Individuals enter our institution with hopes and aspirations to become wonderful teachers. TSCER builds them such that, when they leave the institution after completion of the course, they know that they are fantastic teachers and move ahead with confidence to change the world.

Empathy, knowledge and skills go hand-in-hand for a teacher. TSCER organizes innumerable opportunities through seminars and, workshops, and competitions to help them in their ‘search for the self’. Our college has also enrolled with the Department of Lifelong Learning and Extension (DLLE), where our student-teachers participate in the extension activities.

The pandemic caused by the coronavirus hasn't been able to stop us from reaching our aim in providing various opportunities to our student-teachers. We have explored all possible ways of reaching out to them through various online portals. We encourage them every day, with passion and efforts of our own, to help them realize the value of never giving up! We are geared up to Welcome the new academic year 2023-24 with the same feelings and mission in our hearts.

The newfound world of online teaching has made us realize that the world of teaching-learning is going to change in the post-covid era. Although, we are heartily waiting for such a time, but our present focus has further moved towards the addition of enhancing ICT skills of our student-teachers. We have arranged many workshops, where our student-teachers have got to learn various online tools for teaching and assessment. These workshops have been highly beneficial and impactful for our student-teachers.

As Albert Einstein said,

“It is the supreme art of the teacher to create joy in creative expression and knowledge.”

Let us create a world where teachers create the conditions for invention; where what a teacher is, is more important than what a teacher teaches. Believing in the words of honorable former Vice President of India, Shri Sarvepalli Radhakrishnan, we go persistently towards our goals:

“The end-product of education should be a free, creative human, who can battle against historical circumstances and adversities of nature.”

Staff:

Well qualified trained, experienced staff is appointed to educate the “Future Teachers”.

Campus Placement:

Best Campus Placement - Different School & Colleges were invited for Campus. All the delegates from many institutions conducted open interviews for all the students interested with lots of opportunities placed in front of the student teachers.

We Prepare Teachers for SSC/CBSE/ICSE/IB/IGCSE BOARD

Professional Advancement

Faculty Development Programs

“A lamp can never light another lamp, unless it burns itself.” – R. N. Tagore.

With this goal in mind, we encourage our zealous teachers to keep learning and growing.

They delivered lectures and participated in many seminars to expand their vista.
